The present invention also particularly includes the step of evaluating the amount of time said vehicle engine has idled without a start attempt, and including the remaining structure and controls of claim 21. The present invention also particularly includes the step of evaluating the time said vehicle engine has been cranking without starting, if the vehicle engine's speed is less than idle speed, and including the remaining structure and controls of claim 22.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
